General Information

- The purpose of the Michigan English Test (MET) is to evaluate general English proficiency in educational, social, and workplace contexts.

- The MET is aimed at levels A2 to C1 of the Common European Framework of Reference (CEFR). See reverse for an explanation of how section scores on the MET correspond to the CEFR.

- The overall score and CEFR level reported are averages of the sections tested.

- A section score of X means the test taker was exempt from that section. A section score of 0 means the test taker did not attempt the section, or their answer was not on topic.

- MET scores represent a test taker's English language proficiency at the time the test was taken and are valid as long as the test taker's level of proficiency does not change. Because language proficiency can change over time, score users are advised to consider the test taker's experience with English since the time of the test administration in addition to the test scores themselves.

- Michigan Language Assessment reserves the right to update results or test taker information.
